

Mr. Chairman, Madam Lieutenant Governor, Distinguished Fellow Deplorables, Ladies and Gentlemen. I wonder how they begin speeches at Democrat Party dinners? Birthing people, men who think they might be birthing people, and 29 other genders?

If they identify as Baskin-Robbins, and persuade people to agree with them, maybe they imagine that their crackpot delusions will turn into reality.

Ronald Reagan said: "The trouble with our Liberal friends is not that they're ignorant; it's just that they know so much that isn't so." They hope to distract us from their Marxist mischief and help us forget where we are. Margaret Thatcher said "The first step in calculating which way to go is to find out where you are." So where are we?

Psychologists diagnose Liberalism as a neurosis that comes from Narcissistic Personality Disorder. It causes deceptive feelings of superiority, a compulsion for control over the lives of others, and produces insistent demands that everyone else obey them.

As a result, American political discourse is no longer a cordial chat over a cup of coffee, or as George Washington said: "deliberation in perfect tranquility". No, we are engaged in spiritual warfare against deluded, tyrannical lunatics, who yearn for the power to act out their compulsive obsessions.

Let's have a quick look at history. Early Democrats first displayed these symptoms when they kidnapped millions of African people and forced them to be their slaves, an appalling crime against humanity. The first Republican president, Abraham Lincoln, won the 1860 election by promising the abolition of slavery, which he accomplished, despite furious resistance from Democrats.

Another Republican president, Ulysses S. Grant, appointed numerous African-Americans to prominent federal offices. He gave voting rights to all races in the 15th Amendment. In 1870, he passed three Enforcement Acts to protect African-Americans' rights to vote, hold office, serve on juries, and receive equal protection of the law. President Grant and the Republican Senate banned segregation in the 1875 Civil Rights Act.

When the Supreme Court overturned it in 1883, Democrats imposed Jim Crow laws. They segregated schools, libraries, movie theaters, restaurants, hotels, water fountains and bathrooms, another dreadful crime against humanity.

Democrats used paramilitary groups, such as the White League, the Red Shirts and their own KKK, to enforce segregation until its abolition under another Republican, President Eisenhower.

In 1830, Democrats forced Native Americans into reservations. In 1942, they forced Japanese Americans into internment camps. In the 1930s, they helped the Nazis implement segregation in Germany. Today, they emulate some of the Nazis' ruthless, repressive tactics.

This nation's Founders launched a revolution to pursue justice, equality and liberty. They declared it self-evident that we are all equally endowed with the same God-given rights.

As another famous Republican said, we must not judge people by the color of their skin, but by the content of their character.²

Democrats disagreed, and ever since, they have categorized, labeled and divided people using race, gender, diversity, climate hysteria, the Chinese flu virus, or whatever excuse they can find to control and manipulate as much of our lives as possible. This is the very opposite of everything the Founders intended.

Democrats cannot survive without such divisions, so they incite them, and blame everyone else. They seek out obedient voters who will believe their lies. It saves them the effort of rigging elections. They have to lie and cheat because they have nothing to offer. They know that nobody who is both sane and informed would vote for them.

That's why they conceal their past, lie about the present, and deceive people about their plans for the future. They lie. That's why they hate free speech. They cheat. That's why they hate Voter ID. And they steal our liberty. That's why they hate the Second Amendment.

The Apostle Paul warned against following deceptive spirits and believing the teachings of demons. He said: "These people will speak lies disguised as truth."¹ That sounds just like the Democrats. As Margaret Thatcher said, they try to stop us finding out where we are.

Liberals believe themselves to be tolerant, open-minded, sophisticated, above the law, and morally superior. Not one of those things is true. It's all sanctimonious conceit and self-delusion. They are actually arrogant, intolerant, bigoted, cruel and immoral. Jesus had similar problems with the Pharisees.

Ladies and Gentlemen, history speaks for itself; we know truth from lies, we know right from wrong, and we will take no lectures from Democrats about morality or racism.

Everyone is different, but all are equally important in God's eyes. Again Democrats disagree.

They made a "choice" to force Africans into slavery and segregate their descendants. Now, their preferred method of birth control is to demand the "choice" to brutally murder God's wondrous creations. The same people who can't define a woman claim they are defending women's rights to kill their babies. Don't tiny children have rights?

Ronald Reagan said "I've noticed that everyone who is for abortion has already been born." A hundred and sixty years after Republicans took away their slaves, Democrats still have no respect for the sanctity of life. They lie, they cheat, they steal, they murder. Do they agree with any of the Ten Commandments?

Their enthusiasm for "choice" disappeared when it came to forcing people to wear masks or to be injected with experimental chemicals, another crime against humanity. At the same time, their bank accounts bulged with donations from drug companies.

Democrats also oppose parents having choices about where and how their children are educated. They think parents should be seen and not heard. They accuse parents of being domestic terrorists. If they want to see domestic terrorists, they should look in the mirror! We must reform public education, privatize as many schools as possible, and open more charter and lab schools.

Instead of indoctrinating and dividing children with inappropriate and shocking perversions and toxic Marxist theories on race, teachers should encourage our children to love their country, and help them master the essential academic subjects they need to succeed.

The unscrupulous demons of the Left are devoid of principle, except for the acquisition and maintenance of power and wealth for themselves. In Oliver Cromwell's words: "Gold is your god. Which of you have not bartered your conscience for bribes?"

When things don't go their way, the party of the KKK sends their violent thugs to destroy institutions and businesses and to terrorize innocent people, just like Hitler's brown-shirts.

Voltaire said, "Qui est en droit de vous rendre absurde est en droit de vous rendre injuste." "Those who can make you believe absurdities can make you commit atrocities".

Democrats sympathize with the criminals rather than the victims, they release violent offenders onto our streets, and have opened our southern border to whoever feels like strolling across. The first duty of any government is to uphold the law and protect their own people. Yet they are, at best, neutral between right and wrong. The law-makers have become the law-breakers.

In President Trump, Democrats met their match. In their effort to avoid, or at least delay, his second term, they spread fear, restricted our movements, locked up the country, closed schools and businesses, and destroyed millions of livelihoods. All this was carefully planned to subvert the 2020 election.

They orchestrated big tech, illegal last-minute rule changes, vote fraud and illegal ballot trafficking, mostly executed by Antifa and other left-wing thugs. Democrats have been tampering with elections for 150 years. In 2020, it was organized crime.

They didn't just rob President Trump; they defrauded all Americans, and hijacked the country to enrich themselves. We must find ways to prevent them from stealing future elections. They have already scared low-information voters with fake predictions of another virus this Fall.

I must confess that, of all the Marx Brothers, I find Karl the least funny, but he would certainly cheer today's Democrats. Seventeen months have passed since this illegitimate, Marxist regime seized power.

Anti-American apparatchiks have infiltrated and now control many of our cultural, educational and government institutions.

This Marxist invasion is designed to eradicate the America we love. If they have corrupted our elections, compromised our judiciary, taken control of the media, perverted academia, and weakened our military, who will protect us from them?

The stolen election caused the cross-border invasion, human trafficking, drug smuggling, violent crime, supply chain shortages, soaring gas and food prices, attacks on the police and a weakened military.

Now they want to silence their opponents and monopolize the flow of information. The fake media claim everything is just unintentional incompetence, as if that were something we should ignore. They lie about everything else. Why would they tell the truth about this? If they say the damage to America is unintentional, we can be sure that the opposite is true.

Democrats say it's for our own protection that they are eliminating the freedoms and traditions millions have sacrificed their lives to protect. This is more Orwellian double-talk. Do they think Marxism benefits the American people? Or does it benefit their bank accounts? If Marxist ideas are right, why do they never help anyone except the elite?

Leftists despise our way of life. They seek to destroy it. If we don't want a Marxist future, we must defeat them, return power to the people, and restore the foundations of American society.

We may be uncomfortable fighting for the land of the free and the home of the brave, but is there a choice? Ronald Reagan said: "We must have the courage to do what we know is morally right." It cannot be right to continue down the path to fascist socialism. The United States is too important to become another failed state, yet our laws, our way of life and our national character are at stake.

We reject fraudulent elections, high taxes, deceitful media and government intrusion into every aspect of our lives. Government is our servant, not our master. The lies, cruelty and corruption of the Democrats must enthuse and empower us to a rebirth of this nation and to a lasting victory for American principles.

We must not just pause the advance of Liberalism and Marxism, but stop them dead in their tracks, once and for all. CS Lewis said: "If you're on the wrong road, progress means doing an about-turn and walking back to the right road."

We must reverse direction and put America first, before Democrats destroy everything we cherish.

The dystopian nightmare envisioned by the Left is not the future that patriotic Americans want for themselves or their children. We see a thoroughly different future, one in which we make America great again.

As in 1860, it has fallen to the Republican Party to liberate the American people, this time from the shackles of sadistic, corrupt Democrats. We may not have all the answers, but we certainly know what not to do. Our vision is based on the Constitution, compassion and common-sense.

We serve God, we love America, and we want the best for our families. We want freedom to enjoy our work and our loved ones. We believe in life, we believe in liberty, and we believe in the pursuit of happiness.

With that in mind, I believe we are coming to another turning point in this nation's history. First, we must help others understand where we are. Secondly, we must summon the resolve to restore our poorly-informed, exasperated nation. People are pleading for prosperity, honesty and integrity.

Republicans offer all these, because our ideas are based on genuine incentives, and equal opportunity rather than equal outcomes. We want honest, limited government, fair elections, truthful media, secure borders, personal freedom, low taxes, financial prudence and incentives to work and prosper, so that people can lift themselves out of poverty. We need strong, properly-funded police and well-equipped defense forces. Our defense of freedom starts with our own.

Ronald Reagan said our choice is: "whether we believe in our capacity for self-government or whether we abandon the American revolution and confess that a little intellectual elite in a far-distant capitol can plan our lives for us better than we can plan them ourselves." Republicans offer new hope and new horizons for everyone.

We must restore America's greatness. We must learn again how to be one nation, under God, indivisible, with liberty and justice for all.

Leaders like Lincoln, Grant, Ronald Reagan and Margaret Thatcher have bequeathed examples of wisdom and courage to the leaders of today. And yes, Madam Lieutenant Governor, I'm looking at you.

And at our excellent Governor, Glenn Youngkin, and our fearless Attorney-General Jason Miyares.

We are not boastful, and I say this without bias, but we are blessed to have the best Lieutenant Governor in the United States, and we're very proud of her.

Winsome Sears was born in Kingston, Jamaica. Her family immigrated to the United States when she was six. She served in the US Marine Corps.

She trained as an electrician in the Marine Corps Engineering School. She earned a Bachelors' degree from Old Dominion University and a Masters degree from Regent University. Winsome served in the Virginia House of Delegates and was the first Republican to represent a majority black district since 1865.

She was Vice President of the Virginia State Board of Education, a presidential appointee to the US Census Bureau, and served on the Advisory Committee on Women Veterans to the Secretary of Veterans Affairs. Winsome led a men's prison ministry and was director of The Salvation Army Women's Shelter.

Winsome and Terrance own a plumbing and electrical business. You never know when that might come in useful! In politics you often have to deal with leaks and crossed wires!

Terrance and Winsome have one child in heaven and two on earth. Most importantly, Winsome has a strong relationship with Jesus.

Ladies and Gentlemen, it is my honor to present to you the 42nd Lieutenant Governor of Virginia, The Honorable Winsome Sears.

1 = 1 Timothy 4:1-2

2 = Martin Luther King: "I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character." (August 28, 1963)
